

# Community Benefits TRACKER

## Measuring What Matters

When it comes to communicating how your hospital is promoting the health and well-being of your community, Community Benefits Tracker is the best choice for measuring what matters. Subscribe to the reporting system designed to assist hospitals with collecting and reporting community benefit event information easily and efficiently.

## Your Data...Your Way

We understand the unique challenges hospitals face and work diligently to provide products and services that maximize your resources. Community Benefits Tracker is designed specifically for hospitals, with features that make it easy to tailor your data collection and reporting to best suit your organizational needs.

Web-based system means secure user access anytime, anywhere

Robust, real-time reports

IRS 990 Schedule H module streamlines year-end reporting

Personalized fields/questions allow for customized data collection

Data import feature allows the upload of information from other systems

Built-in tutorials provide self-guided learning

Comprehensive, one-on-one customer support

Personalized, web-based training sessions available at no additional charge

Visit [www.cbtracker.net](http://www.cbtracker.net) to learn more and sign up for a 90-day complimentary trial.
